## INQUIRITIVE.

St. Louis Globe-Democrat.—It would interest the country to know if a single politician has been granted since the 4th of March.

## His only salvation.

St. Louis Globe-Democrat.—The fact has been fully demonstrated that the way for Cleveland to avert panic is to turn his back on his own party.

## THE ADVANTAGES OF OBLIVION.

Chicago Inter Ocean.—Adlai Stevenson is the only office holder who can take things easy this summer. Nobody seems to bother him about anything.

## SORRY.

Chicago Inter Ocean.—The Louisiana sugar planters to the Democratic Chicago platform. "Sugar is sweet and so are you. Smash the rest of the robber tariff, but spare us."

## SOLLY.

Chicago Inter Ocean.—The Atlanta Constitution gleefully announces that "Adlai is on the Chicago platform with both feet." The Constitution might have added that he looks very lonesome.

## CHEAP AS DIRT.

New York Press.—The dome of the Colorado State Capitol is to be ornamented with 7,000 square inches of silver. When Free traders have succeeded in driving American tin out of the country silver will make a cheap substitute for roofing purposes.

## READ IT.

The Hon. Elijah Morse has written a letter to Almy, the condemned New Hampshire murderer, containing advice and consolation. In the end, "Wicked and bad as may have been your past life I might not have been any better had I had the same circumstances and surroundings and temptations." There is probably nothing in all literature that is so constantly and so unconsciously repeated in the real life of the world as the very simple story contained in the eleventh verse of the eighteenth chapter of Luke's Gospel.

## AS PROOF.

New York Herald.—"Maxwell" remarked the President to the Fourth Assistant Postmaster General as they sat together discussing schemes looking to Civil Service reform in the abstract, "have you followed the discussion which is going on in Germany over Herr Dowse's claim to the invention of a bullet-proof substance?" "No, I haven't," replied Maxwell. "Bullet-proof substances don't interest me. But if I hear of anyone inventing an as-proof substance—" The rest of the sentence was lost in the roar of the President's free-hearted laughter. Such little incidents do much to relieve the hard strain of official life.

## PENSION FRAUDS.

New York Herald.—It will be seen in another column this morning that the Pension Department believes it is uncharacteristic remarkable frauds. It is alleged that an attorney has been manufacturing false claims by wholesale and that the robbery of the public Treasury by this man amounts to \$100,000. Representative Mutchler asserted in Congress a few months ago that the country has expended more money in pensions since 1861 than it has cost to administer the Government from its foundation in 1789 to 1860. The genuine old soldiers who have served their country would be glad to see the frauds exposed.

## THE SITUATION IN HAWAII.

Philadelphia Press.—There is little doubt that Mr. Blount is hostile to annexation. All the testimony has concurred that his personal view is opposed to the movement. His action has been in harmony with his feeling. And now that the President makes him Minister the natural interpretation is that he shares his sentiment. If the Administration throws away this chance of acquiring Hawaii it will have a reckoning with the American people and with history. Its course looks as if it wanted to drop the matter while afraid to let go—as if it wanted to take no responsibility while not daring to surrender. That half-hearted, double-sided policy will never work. We must either accept Hawaii or let it alone. If a Democratic Administration, in violation of all Democratic traditions, refuses to accept it, so the much worse for the Administration.

## DURING A COLORED 'FESTIVAL'

at Walton Saturday night there was a general shooting, in which one man was killed, three wounded and none arrested.

PINK VAUGHN of Somerset was found lying by the side of the road near Pulaski Station with a bullet hole in his head. His death is thought to be due to an accident, and, as he was returning alone from a party the night before, stopped to examine his pistol and killed himself.

At Portsmouth there have been caning and fistfights between Hon. A. C. Thompson and Captain N. W. Evans and County Auditor Wessley Leslie Mann. Editor of The Post because of personal articles appearing in that paper and The Blade. The papers as well as the parties are personal as well as political enemies, and more trouble is feared.

Six years ago John Hurst killed a man named Hester in Jackson. He was sentenced to eleven years, served two and was pardoned. A few nights ago Dr. J. C. Balder, brother of the murdered man, shot and fatally wounded Hester at Lexington, for which he is in jail in default of \$10,000 bail.

SEPTEMBER 20th has been set apart as 'Obedience Day' at the World's Fair.

JOSEPH E. E. BOWMAN has resigned as Pastor of the Mt. Street Baptist Church.

S. W. BRADFORD of Brookville is a candidate for State Senator from that district.

And they are now talking of an electric railroad connecting Paris and Lexington.

The City Council of Mt. Sterling has passed an ordinance forbidding the sale of stock on the street.

FRANK SMITH, white and aged 18, was given two years in the penitentiary at Lexington for horse-stealing.

W. H. THOMAS & SONS, Louisville's big dry-goods firm, has suspended, with assets of \$750,000 and liabilities of \$600,000.

THOMAS ANTHONY, a Hardinsburg assemblage, is in jail with eleven indictments against him for salaried breaking.

JAMES GILVIN was given two years in the penitentiary at Lexington for horse-stealing in Nicholas county.

But Will Our Court of Claims Take Any Action?

The Court of Claims of Fayette county has appointed a committee to look into the feasibility of constructing an electric railway from Lexington to at least one of the nearby towns in the Bluegrass region.

It is proposed to run the first road to either Paris, a distance of eighteen miles, or to Versailles, which is fifteen miles away.

It is believed by experts that a road can be built to Paris for \$100,000, and that the farmers along the line will gladly give the right of way. Could this be done it is claimed by the projectors that the farmers could visit Lexington, and that they could buy and sell their produce at a low rate, but freight rates. Some of the most enterprising citizens of Lexington are working in connection with the Court of Claims Committee, and that something will be done to advance the interests of the Bluegrass region in the manner named appears to be no sort of doubt.

One gentleman, who has given the subject much thought, says that if electric lines could be built to the towns mentioned above, Lexington would within five years have a population of 75,000 souls.

The same thing applies to Mayville, though in less degree.

An electric railway connecting with Mt. Olivet, via Germantown, Ala., would be profitable, and would be a line via Washington, Maryland and Baltimore.

Will the Mayville Court of Claims appoint a committee to investigate the matter, as Fayette has done?

There is real benefit to the country people in this.

Advertising in THE LEDGER is a salesman that works early and late. He is talking to people long before your store is open and long after your store is closed.

In 1912 English wheat growers could get from 75 to 84 1/2 per bushel for their wheat in the London market, and England produced about enough of this cereal to supply the home demand. Now 91 1/2 per bushel is the top price, and the island imports two bushels for every one it grows. The wheat-growing area has been cut down fully 2,000,000 acres, the farming interests generally are only kept from bankruptcy by the cheapness of labor and a shutdown on foreign bread supplies would mean famine.

All this, from The Grand Rapids (Mich.) Republican, can be proved by English statements. Would any Mason county farmer like to emigrate from this land of "tariff robbery" and live under British Free-trade?

A few days ago the new heads of the Treasury Department requested the resignations of a large number of subordinates. All these men were requested to resign on the ground that they were of offensive partisanship in the sense simply that they were Republicans. The fact is the purpose of the present administration to remove as many Republicans as they can without trespassing upon the Civil Service laws or stooping to any subterfuge. The many thing that is it that the Treasury Republicans will be removed because they are Republicans, and therefore offensive and on no other ground. Good Democrats will be selected to fill these places.

There are said to be 110,000 Chinese in the United States, and of this number not more than 6,000 registered as required by the Geary Law. Failure to register has resulted in a little feeling on the Pacific slope, and speaking of the matter Governor PENNOCK of Oregon said:

The refusal is most undoubtedly the result of collusion between the President and Chinese Minister. If Clayland had insisted that the law must be enforced there would have been no failure to register. It is most humiliating that the citizens of Oregon first learned of this unpopularity of the Six Companies posted on the walls of a Chinese washhouse in Astoria. Clayland had no business to be responsible for whatever trouble may arise, if he had declared his purpose to enforce the law there would have been no failure to register. The Chinese Minister has apparently dictated the policy of the administration, and he was not properly aware of the fact that articles of impeachment have been preferred against President Wilson for a less offense than Clayland's refusal to strictly enforce the Exclusion Law.

Meanwhile, those who oppose Chinese immigration should remember that the "Democratic Administration" that encourages the Chinese to come and pitch his tent here.

## IN A FERMENT.

The Streets of Madrid Filled  
With Excited People.

Republicans Outwitted in the Cortes  
by the Ministerialists.

Republicans Withdraw from the Building and are Chased—The Ministerialists Take Possession of the Spanish Government Taking Precautions.

MADRID, May 15.—After over six days of continuous session, the Cortes adjourned at 9:15 o'clock Friday night. The ministerialists won a great victory over the republicans, and the republicans were outwitted in the Cortes. The deadlock just ended was caused by the attempt of the government to postpone the municipal elections until November. The republicans opposed the bill in the Cortes persistently, but were outwitted Friday night.

The counter motion of the republicans in the Cortes against leaving the government free-handed in the matter of the municipal elections was rejected shortly after 6 o'clock by a vote of 192 to 18. The republicans deplored the result for a few minutes to the lobby to confer, leaving only a few to watch the government. Almost immediately after their departure the men on watch summoned them back in all haste. It was too late, however. The original bill postponing the election had already been rushed through the house by the ministerialists.

The republican members at once withdrew from the building. As they appeared in a body in the street they were cheered repeatedly by the throngs of the crowd. The ministerialists, like magicians, and before the deputies reached the republican club thousands were cheering behind the shouting "Long live the Republic!" The balconies near the republican club were thronged with men and women, who answered the cheers of those below with the same. The club was filled with representative republicans, who at once gathered in conference to decide upon their future line of action.

Meantime some ten thousand men and women had assembled some two hundred yards from the parliamentary building, and were cheering for the republicans. The police ordered them to disperse. They refused to do so. The police charged and were repulsed. Three republican deputies were killed and many were wounded. All charged with drawn sabers, divided the mob, and scattered the groups through side streets.

At 9:15, when the Cortes adjourned, most of the people had been driven off, and the ministerialists were in no danger of being molested.

At 11:30 o'clock the streets near the middle of the city are still crowded. The republican club is surrounded by thousands of cheering men and women. The republican deputies are said to contemplate resigning in a body from the Cortes.

The government is taking all precautions to protect the public buildings. The Cortes building, the national palace, is filled with mounted guards. The other offices have been similarly garrisoned. The government is taking every precaution to prevent the republicans from manifesting in the city. Orders have been sent to the authorities of all towns in the provinces to prevent the republicans from manifesting in the city.

## ABOUT OHIOANS.

Cincinnati Capitalists Make a Stroke to Gain Foreign Trade.

CHICAGO, Ill., May 15.—One of the unique features in connection with the Ohio Exposition is the presence of a large number of Cincinnati capitalists. They are in charge of E. E. Schwarzkopf, and controlled by Cincinnati capitalists. The purpose of the department is to explain in their own words to the foreign visitors the Ohio exhibits. It is intended to keep complete lists of all the Ohio exhibits, supply free of charge, guides containing the names of the exhibits. These lists are not quite completed, and the chief share of Mr. Schwarzkopf's attention is as yet confined to this work.

Exhibitors, if they realized the advantages to themselves of this department, would send to the Ohio Exposition, and to him, at the Ohio building, a description of their exhibits and their location. Not the least important among the results hoped for is the bringing of the foreign traders into direct communication with the Ohio manufacturers. It is confidently believed that the superior quality of the workmanship shown in many lines of manufacture by Ohio will aid materially to the state's foreign trade.

## Exhibits Still Coming.

CHICAGO, May 15.—Exhibits from foreign countries are still being received in great numbers at the fair. Thursday the customs officials handled 210,000 worth of goods from England, France, Italy and Spain. Nearly all the stuff received now is in small packages and of great value, such as watches, jewelry and pictures. One of the consignments from France was the big bronze statue of Washington, which is to stand in the main rotunda of the building. Domestic exhibits are also being received in large quantities, and the installation of the exhibits is being pushed with the utmost vigor.

## Interior Department Decision.

WASHINGTON, May 15.—Assistant Atty.-Gen. Hall, of the interior department, has rendered an opinion, which has been approved by Secretary of the Interior, holding that the allotments of wives and children of Indians in the Cherokee strip may be sold, but not to the head of the family's land.

## Notions Expected at Home.

ROME, May 15.—Rev. Father Edward McElroy, who was recently returned from his recent mission to the Holy See, is expected daily at the Hotel Stettin, is expected daily at the Hotel Stettin, is expected daily at the Hotel Stettin.

## THE WHEELMEN.

A Parade of Twenty Thousand Bicyclists at the Fair Anticipated May 15.  
CHICAGO, May 15.—All bicycle riders, whether belonging to clubs or not, or allied to any organization of wheelmen, will have a day at the fair, for such it will be, will draw one hundred thousand people to the fair on that day. "Wheelmen's day" is set for Wednesday, May 15, the day after the grand Fair Festival. The parade will be permitted to make a tour of the grounds on their bicycles, entering at the Midway Plaisance gate, and making exit at such gate as may be deemed advisable.

The privilege of riding through the grounds will last from 10 to 11:30 a. m., and the parade will be escorted through the grounds by a platoon of Cuban guards on wheels, if possible. The same privilege will be granted from 2:30 to 3:30 o'clock on the evening of "Wheelmen's day," the parade to carry the regulation lamps. The wheelmen will be permitted to ride through the grounds and hand them to the gatekeepers without dismounting.

## LYNCHERS INDICTED.

Twenty-Five Binge-drunk of a Mob to be Prosecuted.

CHATTANOOGA, Tenn., May 15.—The report of the grand jury Friday afternoon that a mob of twenty-five men had been indicted for the murder of a Negro, accused of criminal assault, and hanged him on the bridge across the Tennessee. Five of these were indicted for murder, and twenty for being accessories to the murder. Many are prominent. One is a wholesale merchant, another is an officer of the law. Papers have been in the hands of deputy sheriffs Friday evening. The evidence is most positive against them.

## Democratic Negroes Want Office.

WASHINGTON, May 15.—The Negro Democratic league has addressed a letter to President Cleveland upon a question "seriously affecting the cause of Negro democracy in this country." After criticizing the republican party for its treatment of the Negro, the letter says that the league stood with the democratic party when it was elected in 1888, and those who had received recognition were promptly chastised and summarily dismissed by the successful republicans. The league in the letter, asks for speedy recognition in appointments to office.

The Countess Evelyn Goes to the Bottom of the Sea.

Together With the Crew of Sixteen and Nine Passengers.

She Collided With the Steamship City of Hamburg and Sinks in Ninety Seconds.

The Steamship's Iron Hull was Crushed by Collision With an Unknown.

LONDON, May 15.—The captain of the steamship City of Hamburg, which arrived at Swansea Saturday from Hamburg, reports that at 1 o'clock Saturday afternoon his vessel collided in a fog off Trevose Head, coast of Cornwall, with the ship Countess Evelyn, bound, with passengers and iron ore from Bilbao, Spain, to Newport, Wales. The captain of the Countess Evelyn jumped aboard the City of Hamburg and Mate Richards crawled to her through a hole in the Countess Evelyn's stern. Ninety seconds later the Countess Evelyn went under, with her crew of sixteen and with nine passengers. Those were lowered at once from the City of Hamburg, but the search in the fog proved almost useless. Seaman Jarbin was picked up. He died a few minutes after having been brought aboard the steamship. The dead body of a little girl also was found. One woman, a student at rescue was resuscitated. The lost passengers were the English wife and the son and daughter of a Spanish gentleman in Bilbao; Mrs. William her son and infant daughter; two men named Barton, and a Londoner whose name has not been ascertained.
